D·M·C®
BABY CALINETTE
VELVETY AND CUDDLY SOFT

NEW

BABY CALINETTE (8162)

Baby Calinette makes each creation irresistibly soft.

- ✓ A new yarn **for baby blankets and garments.**
 - ✓ Ultra-soft feel, thanks to its velvety finish.
 - ✓ Thermal insulation, due to its "hairy" structure and the air trapped between its fibres.
 - ✓ Lightweight, allowing for the creation of warm but not stiff garments.
 - ✓ Uniform appearance, creating smooth, homogeneous and visually "clean" surfaces → highly appreciated in baby products.
- ✓ To ensure **greater safety for the baby**, Baby Calinette is produced using the same technology as DMC Doudou yarn.
Its finish does not have the roundness of real chenille yarn (which is not suitable for babies).
Due to its fine weight, you will find more flat sections; when knitting or crocheting, the finished piece achieves a flawless look.
